SELECTED PROJECTS

Restaurant Reservation System ([KabeerH/cloud-based-restaurant-reservation-system](#)) | *Python, Next.js, Docker, SQLite3* **Apr 2024**

- Fullstack application to reserve reservations for a upcoming restaurant. **Backend API's** done in **python**, Frontend done is the latest framework **Next.js**. Stored data using **SQLite3** Database. Containerized using **Docker-compose** and **Docker**.
- Utilized python's **unittest** for up to date API testing and used **modern security precautions** such as **JWT authentication**, **password hashing** and **access control**

Personal Portfolio Website ([KabeerH/personal-portfolio-website](#)) | *Html, CSS, JavaScript* **Feb 2024**

- Developed a **frontend** portfolio website to effectively showcase personal skills and achievements to a global audience.
- Leveraged the three pillars of web development (**HTML**, **CSS**, and **JavaScript**) to create a visually appealing and functional **software application**.

Assembly Line Simulation ([KabeerH/assembly-line-sim](#)) | *C++* **May 2023**

- Simulates an assembly line to **efficiently fulfill customer orders** from inventory, managing the order processing through multiple stations.
- Developed using C++, incorporating advanced features such as **copy and move semantics**, **class templates**, **containers**, **lambda expressions**, **STL algorithms**, and **smart pointers**.

VOLUNTEERING & HACKATHONS

Seneca Housing Hackathon - Participant | [Seneca Polytechnic](#)

Toronto, ON | Mar 2024

- Developed **U-Health**, a self-assessment application that calculates individual risk-level of becoming homeless due to various reasons and provides **resources based on risk-level**. Used **HTML/CSS/JavaScript** for Frontend and **Express.js** for Backend development.
- Used **Docker** and **Docker Compose** for containerization of the application
- Collaborated within a three-member team, utilizing **Git** and **GitHub** for efficient **version control** and **project management**.

Computer Teacher | [True Davidson Acres](#)

Toronto, ON | Aug 2019 - Feb 2020

- Facilitated the teaching of core modern computer concepts to a diverse audience, including elderly individuals, by **designing** and **delivering** daily activities and lessons.
- Created user-friendly **PowerPoint presentations** to demystify computer operations and **enhance confidence** among individuals interested in understanding technology.
- Implemented effective **problem-solving techniques** to empower individuals with the skills to troubleshoot common computer issues independently.

PROFESSIONAL EXPERIENCES

Cashier | [WillowTree Farm Inc](#)

Toronto, ON | Jun 2024 - Sep 2024

- Engaged in different **customer service activities** such as responding to queries, and providing information about the different products we had to sell.
- Accurately **processed customer transactions** using devices such as cash registers and POS Systems. Dealt with physical transactions which included keeping track of customer orders and giving the appropriate change.
- Keeping track of inventory and reported any shortages to the farm in a appropriate time frame.
- Assisted in setting up the stall at the beginning of the day and packing up at the end.
